New from Spear Online

Find Relief and Look Ahead With Spear Online

Reopen with confidence by taking part in our Practice Recovery program. This exclusive content is available to Spear Online members, along with other virtual practice management resources and more than 1,500 clinical lessons to prepare to treat patients.

[Tour Spear Online](#)

For Specialists

Virtual Content for Specialist Practice Priorities

Spear faculty have you covered with specialist-focused COVID-19 online resources. Surgical, endodontic and periodontal teams can discover virtual study clubs and other Spear resources to mitigate the short-term fallout from the public health crisis and maintain referral networks so patients are cared for in the long run.

[Find Specialist Solutions](#)

Spear Practice Solutions

Crisis Management and Growth Strategy – Tailored for Your Practice

Spear Practice Solutions is delivering new resources to address the COVID-19 crisis. Led by innovators like Amy Morgan, Dr. Gary DeWood and Dr. Mitch Ellingson, the Practice Solutions team is assisting dental teams across the U.S. to manage these turbulent times and remain prepared to meet their practice goals once patients return.

Updated: April 28

At Spear, we've been paying close attention to the current public health situation related to the coronavirus (COVID-19) and are taking measures to ensure all campus seminars and workshops are safe and comfortable for attendees. We've been monitoring updates from local and national authorities and have made the decision to **cancel campus events through May 31**.

We will continue to monitor updates from these authorities and make decisions in regard to all campus events beyond May 31 on a routine basis.

This includes:

- "Implant Restorative Dentistry" (April 29)
- "Occlusion in Clinical Practice" (April 29)
- "Interdisciplinary Case Management" (April 30)
- "Facially Generated Treatment Planning" (May 1, May 2)
- Spear Masters Program "Advanced Referral Management Strategy" (May 4)
- Spear Masters Program "Mastering the Exceptional Specialist Practice - Endodontists" (May 7)
- "Airway Prosthodontics – Taking Dentistry Beyond Sleep Apnea and Advancement Appliances" (May 14)
- "Restorative Design" (May 14)
- "Worn Dentition" (May 17)
- Spear Practice Solutions "The Practice Of Excellence" (May 18)
- "Anterior Restorative Dentistry" (May 28)
- Spear Masters Program - "Mastering the Exceptional Specialist Practice - Surgical Specialists" (May 28)
- All CDOCS workshops in Scottsdale, AZ through May 31

To reschedule call [855.625.2333](tel:855.625.2333) or email customersupport@speareducation.com. If you are an existing customer, reach out to your advisor. Campus seminars and workshops scheduled for June or later are presently set to take place as scheduled.

How We Are Addressing Concerns

We've increased our sanitization measures to keep you and your peers safe and comfortable during your visit to our facilities. The Spear Campus includes areas for live patient treatment, hands-on workshops and food service during our events, so we've always maintained a high standard of infection control (e.g. tissues, hand sanitizers, disinfectant wipes throughout the facility). But in addition to our exhaustive daily sanitization of facilities with peroxide-based cleaning agents, we've now increased the frequency of cleanings (including doorknobs, countertops, etc.) before and after campus events and started administering additional cleaning agents via electrostatic sprayers to specifically address COVID-19.

Meanwhile, Spear will continue to follow recommendations from the Centers for Disease Control and Prevention and take the necessary actions to ensure the safety of our employees, visitors and clients. We look forward to seeing you on campus as we remain focused on the health and well-being of the Spear community.

What's Next?

As things develop, please check back here for updates. We will continue to monitor the situation and inform you and our community as things develop.
