[Home](#) > [About the Port](#) > [Legal Notices](#) > Pandemic Emergency Management Plan

The South Carolina State Ports Authority (“SCPA”), as part of its business continuity planning, is implementing a Pandemic Management Plan. While the various entities that comprise the Port of Charleston work independently of each other, the effects on the various organizations in the event of an uncontrolled pandemic outbreak would be devastating. In the event an employee, whether a SCPA employee or an employee of a Terminal User, should test positive for an infectious disease such as Covid-19, this plan will identify the steps to be taken to notify others that may have been in close contact with that person.
