📅 March 19, 2020 ⌚ 7:20 PM 🔑 Executive Actions

WHEREAS, Coronavirus Disease 2019 (COVID-19) is a novel virus that is the cause of severe acute respiratory illness. It was first detected in Wuhan, Hubei Province, People's Republic of China ("PRC") in December of 2019. As of 16 March, over 169,000 cases of COVID-19 have been reported in more than 140 countries and territories, with major outbreaks in mainland China, Europe, Iran, and South Korea, among others. More than 6,500 people have died from the disease.

WHEREAS, COVID-19 is considered to be highly contagious. The method or manner of transmission is not completely known. Of more concern, there is no confirmed treatment for COVID-19 other than quarantine, isolation and containment. The U.S. Centers for Disease Control ("CDC") is undertaking emergency research and developing protocols to develop a biomedical response or vaccine for COVID-19. The potential pandemic impact of COVID-19 cannot be understated.

still not fully clear. Reported illnesses have ranged from infected people with little to no symptoms to people being severely ill and dying. This is a serious public health threat. The fact that this virus has caused severe illness and sustained person-to-person spread in China and other countries is concerning. For the CNMI and its tourism dependent economy, the risk is substantial due to incubation times, the sourcing of travelers and the developing protocols to deal with a virus that has yet to be contained.

WHEREAS, on January 29, 2020, the Governor issued Executive Order 2020-01 declaring a state of significant emergency regarding the COVID-19 outbreak that ordered the Commonwealth Healthcare Corporation to implement quarantine and preventive measures and directed the Secretary of Finance and Special Assistant for Management and Budget to assess the fiscal impact of the outbreak on the government's budget.

WHEREAS, on January 31, 2020, the Secretary of Health & Human Services, Alex M. Azar II, declared a public health emergency for the United States to aid the nation's healthcare community in responding to COVID-19.

WHEREAS, on January 31, 2020, the President of the United States, Donald J. Trump, issued a

suspending entry into the United States, including the CNMI, of all aliens, immigrants or nonimmigrants, who were physically present within the People's Republic of China, excluding the Special Administrative Regions of Hong Kong and Macau, during the 14-day period preceding their entry or attempted entry into the United States, subject to certain exceptions. This same proclamation also ordered the Secretary of Homeland Security to take all necessary and appropriate steps to regulate the travel of persons and aircraft to the United States to facilitate the orderly medical screening and, where appropriate,

of the outbreak on the government's budget.

WHEREAS, on March 13, President Donald J. Trump declared a national emergency over the COVID-19 outbreak in the continental United States.
