Are there travel restrictions to or from New Jersey?

Last Updated: 05/25/2021

[Copy Link to Article](#)

As of May 17, 2021, New Jersey's travel advisory is no longer in effect.

The CDC, however, has recommendations for both vaccinated and unvaccinated travelers. Travelers leaving New Jersey should check with the travel destination and transportation carrier (i.e., airline, cruise ship, etc.) to see if there are additional health and safety protocols or requirements, such as proof of a negative COVID-19 test within days of departure. Travelers should also check with their employers, schools, and other entities that may have quarantine policies for individuals returning from travel.

Currently, the CDC recommends delaying travel until you are fully vaccinated.

Domestic Travel

According to the CDC, unvaccinated individuals who do travel should get tested 1-3 days before their trip, 3-5 days after travel, and stay home and self-quarantine for 7 days after domestic travel.
