WHAT IS CLEANPOWER?

WINDPOWER will continue as the heart of CLEANPOWER, with the addition of exhibition space and conference programming for utility-scale solar, storage, and other clean energy technologies. By incorporating these technologies into a single exhibition hub, CLEANPOWER will create efficiencies for exhibitors and attendees with multi-technology business models. Pure play businesses will benefit from increased show traffic and opportunities to build beneficial partnerships across the cleantech industry.

PLAY VIDEO: CLEANPOWER

CLEANPOWER 2021 will feature WINDPOWER, Solar America and Energy Storage America, all under one roof.
